I am a B.Tech Computer Science and Engineering student at Galgotias University, Greater Noida, with a strong foundation in programming languages like Python, C, C++, Java, HTML, CSS, and JavaScript. I am currently expanding my skills in full stack development. My career goal is to leverage my technical expertise and problem-solving skills to contribute effectively to innovative projects in the tech industry. I am confident that my background in software development and my eagerness to learn and adapt make me uniquely qualified to help companies achieve their technological goals.

## SKILLS

---

- **Programming Languages:** Python, C, C++, Java
- **Full Stack Development (Learning):** MERN Stack, Django
- **Tools:** Git, VS Code, Cloudflare
- **Web Development:** HTML, CSS, JavaScript
- **Soft Skills:** Problemsolving, Adaptability, Team Collaboration

## EDUCATION

---

### **Bachelor of Technology (B.Tech) in Computer Science & Engineering**

Galgotias University, Greater Noida

 **2022 – Present**

## PROJECTS

---

### **Memory Booster Game**

 [Live Demo](#) | [GitHub Repository](#)

An interactive **memory enhancement game** inspired by Simon Game, designed to improve cognitive recall through progressive difficulty levels. Built using **HTML, CSS, and JavaScript**.

### **Charity Bridge**

A secure **donation platform** facilitating direct connections between donors and NGOs, ensuring transparency in contributions. Developed using **HTML, CSS, and JavaScript**.

### **Spotify Clone**

A **visually immersive music streaming frontend** replicating the core functionalities of Spotify, including music playback and UI responsiveness. Implemented with **HTML, CSS, and JavaScript**.
